INTRODUCING

THE FUELBOX

RED DIESEL / GAS OIL IN A BOX

JMS
PLANT HIRE

A unique specially formulated Additive System, achieving an outstanding performance over conventional Red Diesel/Gas Oil.

Suitable for all off-road diesel engines, fitted with DPf, EGR and SCR systems including modern machines calibrated to EN590.

- Improved cetane rating (boosts power)
- Improves combustion efficiency
- Improves fuel consumption
- Reduced visible emissions (smoke)
- Protects against wear in fuel pumps / injectors

- Enhances the performance by up to 15% of older engines
- Disperses existing sludge build-up
- Contains demulsifiers to combat water build-up
- Reduces deposit and varnish build-up
- Improves storage stability (By up-to 2 years)

Help lower your carbon footprint and meet your sustainability goals. After use this product reduces packaging waste in landfills by 86% and reduces plastic consumption by up to 90%, compared to 20-litre rigid packaging - The FuelBox
